

Art Smart - 2nd Grade
April - Flowers In Art

Project Idea: Flower Portrait Head *(inspired by Arcimboldo)*

Materials Needed:

Yellow card stock

pencil

flower pics from magazines or internet

Instructions:

In advance lightly draw a silhouette of a head/shoulders on large yellow card stock. (template in binder) Also, cut out images of flowers and vegetables from seed catalogs or from images printed out from the internet. Think about the flower shapes and the fact that they will be used for eyes, mouth, noses, etc. Give each student a piece of the card stock with the silhouette. Have them choose flower cut outs to represent facial features and glue them on to fill the space.
