

Art Smart - Kindergarten
April - Respect of Environments

Project Idea: O'Keeffe Flowers

Materials Needed:

White paper or card stock
Pencils
Markers, Oil pastels or Paint

Instructions:

Bring in some examples of live flowers and pictures of flowers. Using white paper or card stock have the students lightly draw the shape of the flower with pencils. Strongly encourage them to fill the whole page with one single bloom. Allow the edges of the flower to go off the edges of the paper so the flower looks very large and close up. Then have them color the flowers in with oil pastels, markers or paint.
