

Art Smart - Kindergarten
November - Horses

Project Idea: Barn with horse & animals

Materials Needed:

Red Construction paper barn

White paper or card stock

Pencils

Crayons

Instructions:

In advance, the volunteer will use the template provided to cut enough barns with doors for each student to have one and will also glue down the barn on the white paper, making sure to NOT GLUE pre-cut barn doors down, they should be folded back to expose white paper beneath. This will maximize time for drawing. Students will then fill in the barn door/windows and background with drawings of horses and/or farm animals.
