**January - Urban Environments**

## Project Idea: Cityscape

**Materials Needed:**

Black Paper  
White, cream or yellow paper  
oil pastels  
crayons  
pencils  
glue/tape

**Instructions:**

Have students draw exterior of buildings on black paper using pastels. Cut holes for windows and doors. When done, tape the piece of lighter colored paper behind the black sheet. Open the windows and doors on the black paper and draw interior scenes on the white paper with regular crayons. Alternate idea: the children may cut windows out of white paper and glue them on the buildings on the black paper.
